

Tourtellotte Memorial High School Student Spotlight for the Month of May: Nicholas Elliott

Each month, Tourtellotte Memorial High School's Student Spotlight program recognizes a student who has demonstrated outstanding achievement, character, leadership, attitude, and/or contributions to the school and community. May's Student Spotlight honoree is senior Nicholas Elliott. In Nick's nomination, Joseph Bogoslofski, the nominator, states, "Nick is probably the friendliest kid in the school. He puts a smile on everyone's face and there is never a dull moment with Nick. Even if you are having an awful day as soon as you talk to Nick your day gets so much better. Joe also noted, "Nick also tries his hardest in the classroom and puts in so much effort. If anybody deserves this award, it's Nick." Regarding his motivation, Nick states, "My motivation comes from the satisfaction of others. Not only a job well done, I enjoy making others happy. My motivation comes from the idea to never disappoint another."

Nick also actively participates in Relay for Life each spring. Although Nick does not consider himself a large part of the community, he is always happy to help with anything regardless of his own plans. Of his plans for the future, Nick states, "My future plans involve getting a four year business degree at Nichols College, while also taking real estate courses on the side. I would like to travel and become an entrepreneur in entertainment." Recently, Nick was awarded a \$60,000 Faculty Achievement Scholarship award to Nichols College. His junior and senior year, bringing his grades up was his biggest goal, and because of his determination, it has brought him nothing but success. Nick's personal message to the school and community is "Thompson is a small community. I believe that seniors should be breaking down social classes and be kind to everyone, not just their friends. It is easy to judge a person's character by the way they treat fellow students."
